Software Engineer | Backend & Full-Stack | Python · TypeScript · C#

Software Engineer with production experience building Stripe Connect payment systems, multi-tenant backends, and React Native mobile apps. M.S. Computer Science candidate with a 4.00 GPA and full-stack, AI/LLM integration, and C++ systems-programming experience.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C#, C++, Go, SQL
Backend and APIs: FastAPI, Node.js, Express.js, ASP.NET Core, REST APIs, JWT, Stripe Connect
Frontend and Mobile: React, React Native, Tailwind CSS, HTML5, CSS3
Databases and AI: PostgreSQL, SQL Server, Supabase, pgvector, Retrieval-Augmented Generation (RAG), embeddings
Cloud and DevOps: AWS, Azure, Netlify, Docker, Docker Compose, CI/CD, Git, GitHub
Tools: Claude API, Gemini API, OpenRouter, sentence-transformers, Jest, Postman, Alembic, Swagger/OpenAPI

PROFESSIONAL EXPERIENCE

WRTH | Remote, USA
Backend Software Engineer (Full-Time Contract) | May 2026 – Present

- Built Stripe Connect payment workflows in TypeScript and Node.js with checkout idempotency and payable-amount validation; engineered a multi-tenant Supabase PostgreSQL backend for merchant inventory, role-based access, and orders, deployed on Netlify.
- Shipped an Android NFC companion app in React Native with Supabase PostgreSQL row-level security and NDEF read/write tag operations.
- Built three AI live-event activations in TypeScript and PostgreSQL using Claude Code and the Claude, Gemini, and OpenRouter APIs; added Google Wallet and head-to-head battles for 100 attendees.
- Hardened a Python pipeline spanning Google Lens, voting, and pricing; added six-format pattern matching, AI vision verification, an eight-category classifier with regression tests, and eBay and StockX integrations.
- Collaborated with product and engineering teams to deliver backend features, participated in pull requests and peer code reviews, and improved software reliability through automated testing.

Russell Cellular | Warwick, NY
Store Manager | Nov 2020 – Present

- Lead and train a team of four associates; manage hiring, scheduling, inventory, and loss prevention.
- Exceed sales targets by more than 10% while managing daily store operations and customer experience.

Aunt Mary's Storybook – Companions Journeying Together | Remote, USA
Software Developer (Volunteer) | Aug 2025 – Feb 2026

- Resolved 15+ authentication and role-based workflow defects, optimized SQL queries, and delivered 5+ backend features in CodeIgniter 4 using MVC architecture.

PROJECTS

RepairOps – Repair Management System | C#, ASP.NET Core, SQL, React, React Native | Nov 2025 – May 2026

- Built a multi-user repair-tracking system with real-time updates across mobile and desktop clients backed by an ASP.NET Core REST API.

Document Analysis API | FastAPI, PostgreSQL, React, Docker, Claude API | Feb 2026 – Apr 2026

- Built a full-stack PDF analysis application with a FastAPI REST API and React/Tailwind frontend; stored uploaded PDFs in PostgreSQL to support per-document question answering.
- Implemented JWT/bcrypt authentication, Alembic migrations, and a Docker Compose stack for the API, web client, and PostgreSQL.

CyberWatch – AI-Powered Cybersecurity News Curator | Go, React, Claude Code, Claude API, Docker | Mar 2026 – Apr 2026

- Built a Go and React cybersecurity news platform using Claude API for retrieval, analysis, categorization, and summaries; added caching, rate limiting, error handling, and Docker deployment.

Game Boy Emulator | C++, CMake, SDL2 | Apr 2026 – Aug 2026

- Built a Game Boy emulator from scratch in C++, implementing all 512 SM83 CPU opcodes, memory management, interrupts, timers, DMA, input, and MBC1 bank switching.
- Implemented PPU graphics rendering and validated CPU correctness against the Blargg test suite, passing all 11 cpu_instrs tests.

EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems | New York, NY
Master of Science in Computer Science | GPA: 4.00 | Expected May 2027
Bachelor of Science in Computer Information Technology, Software Development Concentration | GPA: 3.41 | May 2021

CERTIFICATIONS

Google AI Professional Certificate | Issued Sep 2026
Microsoft Certified: Azure Fundamentals | Issued Oct 2025
MIT xPRO: Professional Certificate in Full Stack Development (MERN) | Issued Aug 2023
